We Deliver Free

To any post office in the United States all Flower and Vegetable Seeds in packets, ounces, and quarter pounds, at catalogue prices.

When Seed by the pound, and Peas, Beans, and Corn, by the quart and upwards are ordered to be sent by mail, 8c. per pound and 10c. per quart must be added for postage. Canadian shipments require double that amount for postage.

When sent by freight or express, purchaser pays transit charges on all Seeds in bulk, Fertilizers, Insecticides, and Greenhouse and Garden Supplies, except where otherwise noted.

We make no charge for boxes, packing, or cartage, except where Peas, Beans, Corn, and Grass Seed are ordered in large quantities, when 25c. extra must be added for every two bushels to cover cost of bags.

New customers desiring to open accounts—who are unknown to us—must give satisfactory references as to their responsibility.

Orders from unknown purchasers, unaccompanied by remittance or satisfactory references, will be shipped by express C. O. D.

Customers who remit cash with order may deduct five per cent. for cash.

Remittance can be made with perfect safety by check, post office or express money order; or cash can be sent in registered letter; fractional parts of a dollar in postage stamps.

Cash should never be sent in unregistered letter. Under no circumstances will we assume any responsibility for the safe carriage of money sent in unregistered letters.

Our seeds are tested seeds of the very best quality obtainable, and our prices are fixed at the very lowest rates consistent with high quality. While we exercise the greatest care to have all our seeds pure and reliable, we give no warranty expressed or implied, and will in no way be responsible for the crop. If purchaser does not accept our goods on these conditions, they must be returned at once.

Grass Seeds

PIERSON'S PERFECTION LAWN GRASS SEED

The best mixture made for lawns, grass plots, etc. Nothing adds so much to the beauty of a country place as a well-kept, velvety lawn. In order to secure this it is necessary that the proper grasses should be sown. More disappointment results from sowing inferior seed than from any other cause. Our Perfection mixture is composed of the finest American grasses, in proper proportions of such kinds as are best adapted for our hot, dry summers, and will form a close velvety lawn very quickly after being sown. Oats should never be sown with our mixture, as our seed comes up quickly and strong, and is better without them.

For new lawns, use four bushels per acre. One quart will sow 300 square feet.

Qt., 20c.; pk., \$1.25; bushel (14 lbs.), \$3.25; measured bushel (21 lbs.), \$4.75. 2 bushels in a bag. Bags, 25c. extra. If sent by mail, 5c. extra per quart must be added for postage.

OUR SPECIAL MIXTURE FOR HAY AND PERMANENT PASTURE

Much heavier hay crops can be produced and much better pasturage obtained where a mixture of the best grasses for these different purposes are used than when only one or two sorts are sown, as is very often done. We believe that the mixture offered by us will give particularly heavy crops of hay, and, after that, will afford most excellent and luxuriant pasturage, remaining in good condition for a great length of time without the necessity of re-seeding. Our mixture will be found unexcelled for this purpose, and we can recommend it with the greatest confidence. It should be sown at the rate of three bushels per acre, or, if quick results are wanted, a larger quantity can be sown. The thicker the seed is sown, the sooner a fine, close turf will be obtained. Pk., 75c.; bushel (14 lbs.), \$2.50.

PURE BONE MEAL

Quick acting and immediately available, and for this reason is largely used for mixing in potting soil and for top-dressing roses, carnations, and other plants grown under glass; also splendid for garden use. It is made from hard, dry bone, is perfectly pure, entirely free from acid, and can be used with perfect safety in any quantity. We use this largely in our rose soil, and have found it the very best grade of bone that we can use for the purpose.

Bag (167 lbs.), \$5.00; ton, \$42.00, f. o. b. factory.

LAWN DRESSING

Highly concentrated, clean and cheap, for enriching lawns and grass plots. Use at the rate of half a ton per acre. Bag (167 lbs.), \$5.00; ton, \$42.50, f. o. b. factory.

LILY OF THE VALLEY

We offer a very fine grade of valley, which we carry in cold storage for forcing for immediate delivery. We can furnish this during the season, when new importations of valley are not available and not suitable for forcing. New importations usually arrive in the fall, and do not give the requisite amount of foliage for immediate use. The cold storage valley can also be used for outdoor planting.

Cold Storage. January to April—\$5.75 per case 250 pips; \$11.00 per case 500; \$20.00 per case 1,000. May to August—\$6.00 per case 250; \$11.50 per case 500; \$21.00 per case 1,000. September to December—\$6.25 per case 250; \$12.00 per case 500; \$22.00 per case 1,000.
